Testimonials

“I got accepted to Columbia University and will be attending starting in the Fall. I just wanted to write an email thanking you for all the help you've provided me over the course of the last eight or so months”

“I wanted to thank you for your assistance with my resume. I received a job offer this week from a company in Louisiana as Director of Information Systems.”

“I attended the Executive Retirement Seminar two weeks ago and have nothing but the utmost appreciation for the efforts/ information passed; and the genuine care every member of the staff afforded the attendees, not only during the course by walking us through the retirement/job hunting process but by the after the course assistance by passing us new information as they received it. I think every attendee left the seminar with a better understanding of the obstacles ahead of us us-more importantly now we know how to hurdle them; consequently, the anxiety is manageable.”

“I transitioned out of the Marine Corps in October 2013. I sat down with you in July and you helped me build my resume. I landed a job with Phillips 66 here in New Jersey. I am so happy and grateful for getting this opportunity. Thank you for your help and for all the great advice.”

“Great news! I got hired by FedEx as an Ops Coordinator while I still have a month of terminal leave left! I also am still looking at the TTT potential and have been contacted by the local reps here. Thanks for all the help and info. FedEx said my resume was one of the most well put together that they had seen in a long time. Thank you and Lee so much for helping me get that together and keep up the amazing work you guys do!”

“I left the Marine Corps in October 2012. Mrs. Pelaez helped my transition tremendously...she set me up for success. I needed help on building an impressive resume. Today I am writing this statement as a testimony of the importance and the impact of this transition program. I went into the Harvard Club of New York City, which is a Harvard University alumni member’s club. I got hired as a security guard and I am now the Assistant Director of Security. Thanks to the Post 9/11 GI BILL...I am able to attend Fordham University without having to pay anything...I want to thank the transition program and Mrs. Pelaez. I hope that my testimony serves as a valid reason to keep this program ...for future Marines going into Civilian life.”
