Dementia Care for America’s Heroes: Overview of Dementia Care Services and Supports for Veterans

Presented by Heather McKay, MS, OT/L, Dementia Care Specialist

Part of “Hospice and End-of-Life” presentation for The Governor’s Working Group on Veterans, Service Members, and their Families

June 22, 2017
A Growing Need

- **160,000 North Carolinians** are living with Alzheimer’s disease today.
- **210,000 by 2025.**
- **By 2030,** the segment of the U.S. population age **65 and older** will increase substantially, and the projected 74 million older Americans will make up over **20 percent of the total population** (up from 14 percent in 2012).
- **In 2014,** **3,246 deaths due to Alzheimer’s in NC** (about 33 people in 100,000).
- **Now one of the top 5 causes of death.**
In 2016, caregivers of people with Alzheimer’s or other dementias provided an estimated **18.2 billion hours** of informal (that is, unpaid) assistance.

At a value of **$230.1 billion**.

This is the equivalent of

- 48 percent of the revenue of Walmart in 2016
- nine times the total revenue of McDonald’s in 2015

In NC, **459,000 family caregivers** (2016)

523 million hours of unpaid care

At a value of **OVER 6.6 billion dollars**

Increased their OWN healthcare costs **296 million dollars**
Building a Dementia-Capable System of Long Term Services and Support

Needs of People with Dementia
- Research to detect early changes
- New government policies
  - Medicare reimbursement
  - Adoption of the Physician Orders for Life-Sustaining Treatment
  - Social Security Compassionate Allowance
  - Healthy Brain Initiative (CDC initiative)
- Project CARE in NC
- Addressing costs

States are revising practice guidelines for many professionals

Emerging practice trends
- Emphasis on early detection
- Non-pharmacological interventions
- Gaps in disclosure and documentation
- Lifestyle modifications

States are revising practice guidelines for many professionals

Emerging practice trends
- Emphasis on early detection
- Non-pharmacological interventions
